 Progetto Solidarietà

INTERCULTURAL PLAYING AREA

For 0 to 6 year-old children and their parents

"Progetto Solidarietà" has been working for more than 20 years for ailing Third World and Eastern Europe countries, by intervening in situations of special emergency and raising funds to maintain and create helping plans. It promotes long-distance adoptions in Brazil and Uganda. In January 2009 it opened the intercultural playing area "Giocomondo", which is equipped for making 0 to 6-year-old children play, where parents and children even coming from different cultures and countries can spend some time together. But it is not only about that: we organize classes, meetings with experts and intercultural laboratories, so that the time spent in such a place can be pleasant and constructive. The area "Giocomondo" is also available for birthday parties.

FREE OFFERING
 ADMISSION
